IC 25-31-1-2 Definitions

Sec. 2. As used in this chapter:

- (a) "Board" means the state board of registration for professional engineers.
- (b) "Professional engineer" means an individual who, by reason of that individual's special knowledge of the mathematical and physical sciences and the principles and methods of engineering analysis and design which are acquired by education and practical experience, is qualified to engage in the practice of engineering as attested by that individual's registration as a professional engineer.
- (c) "Engineering intern" means an individual who:
 - (1) is a graduate from an approved engineering curriculum of four (4) years or more or who has acquired, through engineering education and experience in engineering work, knowledge and skill approximating that obtained by graduation in an approved engineering curriculum of four (4) years or more;
 - (2) has successfully passed an examination as prescribed in section 14 of this chapter; and
 - (3) has been issued by the board an appropriate certificate of enrollment as an engineering intern.
- (d) "Practice of engineering" means any service or creative work that the adequate performance of requires engineering education, training, and experience in the application of special knowledge of the mathematical, physical, and engineering sciences to services or creative work that includes the following:
 - (1) Consultation.
 - (2) Investigation.
 - (3) Evaluation.
 - (4) Planning, including planning the use of land and water.
 - (5) The design of or the supervision of the design of engineering works and systems.
 - (6) Engineering surveys and studies or the supervision of engineering surveys and studies, including all surveying activities required to support the sound conception, planning, design, construction, maintenance, and operation of engineered projects, but not including the surveying of real property for the establishment of land boundaries, subdivisions, rights-of-way, easements, and the dependent or independent surveys or resurveys of the public land survey system.
 - (7) Evaluation of construction for the purpose of assuring compliance with specifications, plans, and designs, in connection with any public or private utilities, structures, buildings, machines, equipment, processes, work systems, or projects.

The term "practice of engineering" does not include the work ordinarily performed by persons who operate or maintain machinery or equipment.

- (e) "Approved engineering curriculum" means an engineering curriculum of four (4) years or more that has been approved by the board. In approving the engineering curriculum, the board may take into consideration the standards of accreditation adopted by the Accreditation Board for Engineering and Technology.

(1) All of the following:

- (A) Graduation in an approved engineering curriculum of four (4) years or more.
- (B) A specific record of four (4) years or more of progressive experience on engineering projects of sufficient quality acquired subsequent to graduation, which experience indicates that the applicant is qualified to be placed in responsible charge of engineering work requiring the exercise of judgment in the application of engineering sciences to the sound solution of engineering problems.
- (C) The successful passing of an examination as provided for in section 14 of this chapter.

(2) All of the following:

- (A) A specific record of eight (8) years or more of engineering education and experience in engineering work, which indicates that the applicant has acquired knowledge

and skill and practical experience in engineering work approximating that required for registration as a professional engineer under subdivision (1).

(B) The successful passing of an examination as provided for in section 14 of this chapter.

(b) The following under either subdivision (1) or (2) shall be considered as minimum evidence that the applicant is qualified for certification as an engineering intern:

(1) All of the following:

(A) Graduation in an approved engineering curriculum of four (4) years or more.

(B) The successful passing of an engineering intern examination as provided in section 14 of this chapter.

(2) All of the following:

(a) An individual applying for registration as a professional engineer or for certification as an engineering intern shall apply for registration or certification on a form prescribed and provided by the board. Each application for registration shall contain statements showing the education and qualifications of the applicant and a detailed summary of the technical work performed by the applicant. An application for registration as a professional engineer shall be accompanied by the names of five (5) persons to be used as references, at least three (3) of whom are professional engineers who have a personal knowledge of the experience of the applicant. Each application for a certification as an engineering

intern must contain statements showing the education of the applicant, and except for an application for an examination to be given during the applicant's senior year, the application shall be accompanied by the names of three (3) persons to be used as references. All applications shall be certified to by the applicant as to the correctness of the statements contained in the application.

(b) A person who knowingly makes a false statement in the application commits a Class A misdemeanor.

(c) The amount of registration fees for a professional engineer and for an engineering intern shall be fixed and determined by the board under IC 25-1-8-2. The board shall also in its rules prescribe the manner and the time for the paying of registration fees.

(d) In the event the board refuses to issue a certificate of registration to any person who has made proper application for registration as a professional engineer, any initial fee prescribed by the board and deposited with the board by an applicant shall be retained by the board as an application fee.

(e) In the event the board refuses to issue a certificate to any person who has made proper application for certification as an engineering intern, the fee prescribed by the board and deposited by the applicant with the board shall be retained as an application fee.

(Formerly: Acts 1935, c.148, s.13; Acts 1947, c.262, s.5; Acts 1957, c.320, s.6; Acts 1961, c.277, s.4; Acts 1965, c.284, s.7; Acts 1969, c.279, s.3.) As amended by Acts 1978, P.L.2, SEC.2553; P.L.23-1991, SEC.21; P.L.215-1993, SEC.12.

IC 25-31-1-14 Examination; reexamination

Sec. 14. (a) The examination required of all applicants for registration as a professional engineer shall be a written examination which shall be divided into the following two (2) parts, each of eight (8) hours duration:

(1) Engineering fundamentals.

(2) Principles and practice of engineering.

The board may adopt rules under IC 4-22-2 establishing additional examination requirements.

(b) The engineering fundamentals portion of the examination shall be designed to test the applicant's knowledge of mathematics and the physical and engineering sciences. The standards of proficiency required shall approximate that attained by graduation in an approved four (4) year engineering curriculum.

(1) mathematics;

(2) the physical sciences;

(3) the engineering sciences; and

(4) engineering design analysis and synthesis;

to the practice of professional engineering. A part of the examination may be designed to test the applicant's knowledge and understanding of the ethical, economic, and legal principles relating to the practices of professional engineering.

(d) An applicant for registration as a professional engineer who holds an engineering intern certificate issued in Indiana or in any other state or territory having equivalent standards may be exempted from the engineering fundamentals portion of the examination.

(e) An applicant must successfully pass the engineering fundamentals portion of the examination before taking the principles and practice portion of the examination.

(f) Examinations shall be held at times and places as determined by the board at least two (2) times each year. Examinations for certification as an engineering intern may be held separately from the examinations for registration as a professional engineer.

(g) An applicant for registration as a professional engineer who is presently registered in another state or territory may be assigned a written examination as the board deems necessary to meet the requirements of this chapter.

(h) An applicant for registration as a professional engineer who

fails in the first examination may request to be readmitted for a second examination at either of the next two (2) regularly scheduled examinations. Upon application and at the discretion of the board, an applicant who misses:

- (1) the originally scheduled examination; or
- (2) the next two (2) regularly scheduled examinations;

may be given permission to appear for another regularly scheduled examination. The amount of fee to be paid for each examination shall be determined by the board under IC 25-1-8-2.

(i) If an applicant who has failed three (3) or more examinations reapplies and submits evidence of acquiring additional knowledge for the examination, the board may give the applicant approval to take subsequent examinations.

(Formerly: Acts 1935, c.148, s.14; Acts 1947, c.262, s.6; Acts 1957, c.320, s.7; Acts 1961, c.277, s.5; Acts 1969, c.279, s.4.) As amended by Acts 1980, P.L.166, SEC.6; P.L.23-1991, SEC.22; P.L.215-1993, SEC.13; P.L.194-2005, SEC.79.

In the case of a professional engineer, the certificate shall authorize the practice of "professional engineering". The certificate of registration shall:

- (1) show the full name of the registrant;
- (2) bear a serial number and date; and
- (3) be signed by a designee of the board.

The issuance of any certificate of registration by the board under this chapter is evidence that the individual named on the certificate is entitled to all the rights and privileges of a registered professional engineer from the date on the certificate until it expires or is revoked.

(b) The board shall issue a certificate of enrollment upon the payment of the certificate fee prescribed by the board under IC 25-1-8-2 to any applicant who, in the opinion of the board, has satisfactorily met all of the requirements of this chapter. In the case of an engineering intern, the certificate shall state that the applicant has successfully passed the examination in engineering fundamentals and has been enrolled as an engineering intern. The certificate of enrollment shall:

- (1) show the full name of the enrollee;
- (2) bear a serial number and date; and
- (3) be signed by the director of the licensing agency.

IC 25-31-1-17 Expiration and renewal of certificate

Sec. 17. (a) Unless a certificate is renewed, a certificate issued under this chapter expires on a date specified by the licensing agency under IC 25-1-6-4 and expires biennially after the initial expiration date. An applicant for renewal shall submit an application in the manner prescribed by the board and pay the renewal fee established by the board under IC 25-1-8-2 on or before the renewal date specified by the licensing agency.

(b) If the holder of a certificate does not renew the license by the date specified by the licensing agency, the certificate expires and becomes invalid without the board taking any action.

(c) The failure on the part of a registrant to renew a certificate does not deprive the registrant of the right of renewal until the registrant's certificate has remained invalid during two (2) biennial renewal periods if the registrant pays the appropriate delinquent and renewal fees. After two (2) successive biennial renewal periods have elapsed renewal shall be denied.

(b) If the board adopts rules under this section, the rules must do the following:

- (1) Establish an inactive certificate of registration that:
 - (A) does not require the holder of an inactive certificate to obtain continuing education; and
 - (B) prohibits the holder of an inactive certificate from practicing engineering.
- (2) Establish requirements for reactivation of an inactive certificate.

Sec. 18. (a) A registration certificate for a professional engineer may be issued only to a natural person.

(b) A business, including a proprietorship, partnership, or corporation, doing business in Indiana may not practice or offer to practice engineering unless that practice is carried on under the responsible direction and supervision of a registered professional engineer who is a full-time employee of the business. All plans, sheets of designs, specifications, reports, studies, or other engineering documents that require certification and are prepared by the personnel of a business must carry the signature and seal of the registered professional engineer who is in responsible charge of the professional engineering work.

(Formerly: Acts 1935, c.148, s.18; Acts 1957, c.320, s.8; Acts 1961, c.277, s.8; Acts 1967, c.95, s.1.) As amended by P.L.23-1991, SEC.25; P.L.215-1993, SEC.18.

construction and maintenance executed under the direct supervision of, a professional engineer. Any contract executed in violation of this section is void.

(b) An official of this state, or of any city, town, county, township, or school corporation, charged with the enforcement of any law, ordinance, or rule relating to the design, construction, or alteration of buildings or structures may not use or accept or approve any plans or specifications that have not been prepared by, or under the supervision of and certified by, a registered professional engineer. This subsection does not apply:

(1) to plans or specifications prepared by, or under the supervision of and certified by, an architect who is registered under IC 25-4-1;

(2) to structures and construction listed in IC 22-15-3-3(a); or

(3) to plans or specifications contained in a registration, license, or permit application, including an application for an initial permit, the renewal of a permit, the modification of a permit, or a variance from a permit submitted to the commissioner of the department of environmental management under IC 13, unless the permit is for the approval of plans or specifications for construction for which a professional engineer's seal is required by operation of either state or federal law, rule, or regulation. This subsection does not require a professional engineer's seal for an application for an air quality construction permit under 326 IAC 2-1-3.

This section shall not be construed as to abridge or otherwise affect the powers of any state board or department to issue rules governing the safety of buildings or structures.

Sec. 20. (a) An employee or a subordinate of any person who holds a certificate of registration under the provisions of this chapter is exempt from the provisions of this chapter if the practice of the employee or subordinate does not include responsible charge of design or supervision.

(b) This chapter does not require registration for the purpose of practicing engineering by an individual or a business:

(1) on property owned or leased by that individual or business unless the engineering practice involves the public health or safety, or the health or safety of the employees of that individual or business;

(2) for the performance of engineering which relates solely to the design or fabrication of manufactured products; or

(3) that is registered as a landscape architect under IC 25-4-2 and while the individual or business is engaged in the practice of landscape architecture planning the use of land or water.

In determining the qualifications of an applicant, the board may accept the verified professional record of the applicant that is certified by the National Council of Examiners for Engineers and Surveyors.

However, an applicant meets the experience requirement under section 12 of this chapter if the applicant:

(b) Any person who has been enjoined and violates an injunction shall be punished for contempt of court. An injunction does not relieve a person engaged in the practice of engineering without a certificate of registration or without first having renewed an expired certificate of registration from a criminal prosecution.

(c) The remedy by injunction is in addition to any remedy provided for herein for the criminal prosecution of the offender. In charging any person in a complaint for violation of the provisions of this chapter by engaging in the practice of engineering without a certificate of registration or without having renewed an expired certificate of registration, it is sufficient to charge that the offender:

actions;

(3) recordkeeping of all persons licensed, regulated, or certified by a board;

(4) administration of examinations; and

(5) administration of license or certificate issuance or renewal.

(b) In addition the agency:

(1) shall prepare a consolidated statement of the budget requests of all the boards in section 3 of this chapter;

(2) may coordinate licensing or certification renewal cycles, examination schedules, or other routine activities to efficiently utilize agency staff, facilities, and transportation resources, and to improve accessibility of board functions to the public; and

(3) may consolidate, where feasible, office space, recordkeeping, and data processing services.

(c) In administering the renewal of licenses or certificates under this chapter, the agency shall send a notice of the upcoming expiration of a license or certificate to each holder of a license or certificate at least sixty (60) days before the expiration of the license or certificate. The notice must inform the holder of the license or certificate of the need to renew and the requirement of payment of the renewal fee. If this notice of expiration is not sent by the agency, the holder of the license or certificate is not subject to a sanction for failure to renew if, once notice is received from the agency, the license or certificate is renewed within forty-five (45) days after receipt of the notice.

(d) In administering an examination for licensure or certification, the agency shall make the appropriate application forms available at least thirty (30) days before the deadline for submitting an application to all persons wishing to take the examination.

(e) The agency may require an applicant for license renewal to submit evidence proving that:

(1) the applicant continues to meet the minimum requirements for licensure; and

(2) the applicant is not in violation of:

(A) the statute regulating the applicant's profession; or

(B) rules adopted by the board regulating the applicant's profession.

(f) The agency shall process an application for renewal of a license or certificate:

(1) not later than ten (10) days after the agency receives all required forms and evidence; or

(2) within twenty-four (24) hours after the time that an applicant for renewal appears in person at the agency with all required forms and evidence.

This subsection does not require the agency to issue a renewal license or certificate to an applicant if subsection (g) applies.

(g) The agency may delay issuing a license renewal for up to ninety (90) days after the renewal date for the purpose of permitting the board to investigate information received by the agency that the applicant for renewal may have committed an act for which the applicant may be disciplined. If the agency delays issuing a license renewal, the agency shall notify the applicant that the applicant is being investigated. Except as provided in subsection (h), before the end of the ninety (90) day period, the board shall do one (1) of the following:

(1) Deny the license renewal following a personal appearance by the applicant before the board.

(2) Issue the license renewal upon satisfaction of all other conditions for renewal.

(3) Issue the license renewal and file a complaint under IC 25-1-7.

(4) Request the office of the attorney general to conduct an investigation under subsection (i) if, following a personal appearance by the applicant before the board, the board has good cause to believe that there has been a violation of IC 25-1-9-4 by the applicant.

(5) Upon agreement of the applicant and the board and following a personal appearance by the applicant before the

board, renew the license and place the applicant on probation status under IC 25-1-9-9.

(h) If an individual fails to appear before the board under subsection (g), the board may take action on the applicant's license allowed under subsection (g)(1), (g)(2) or (g)(3).

(i) If the board makes a request under subsection (g)(4), the office of the attorney general shall conduct an investigation. Upon completion of the investigation, the office of the attorney general may file a petition alleging that the applicant has engaged in activity described in IC 25-1-9-4. If the office of the attorney general files a petition, the board shall set the matter for a hearing. If, after the hearing, the board finds the practitioner violated IC 25-1-9-4, the board may impose sanctions under IC 25-1-9-9. The board may delay issuing the renewal beyond the ninety (90) days after the renewal date until a final determination is made by the board. The applicant's license remains valid until the final determination of the board is rendered unless the renewal is denied or the license is summarily suspended under IC 25-1-9-10.

(j) The license of the applicant for a license renewal remains valid during the ninety (90) day period unless the license renewal is denied following a personal appearance by the applicant before the board before the end of the ninety (90) day period. If the ninety (90) day period expires without action by the board, the license shall be automatically renewed at the end of the ninety (90) day period.

(k) Notwithstanding any other statute, the agency may stagger license or certificate renewal cycles. However, if a renewal cycle for a specific board or committee is changed, the agency must obtain the approval of the affected board or committee.

(l) An application for a license, certificate, registration, or permit is abandoned without an action of the board, if the applicant does not complete the requirements to complete the application within one (1) year after the date on which the application was filed. However, the board may, for good cause shown, extend the validity of the application for additional thirty (30) day periods. An application submitted after the abandonment of an application is considered a new application.

Sec. 1. (Repealed by State Board of Registration for Professional Engineers; filed Oct 17, 1986, 2:20 pm: 10 IR 443)

864 IAC 1.1-2-2 Engineers; education and work experience Authority: IC 25-31-1-7; IC 25-31-1-8 Affected: IC 25-31-1-12

Sec. 2. (a) This section establishes the minimum education and experience requirements under IC 25-31-1-12 for admission to the professional engineer examination.

(b) The following table establishes provisions for evaluating combined education and experience to determine if it is sufficient to satisfy minimum registration requirements under IC 25-31-1-12 for professional engineer registration applicants holding the stated degrees:

Education (Qualifying Degree)	Minimum Years of Progressive Work Experience Following Baccalaureate Degree
Doctorate in an engineering discipline following a baccalaureate degree in an approved engineering curriculum	2
Master of science degree in an engineering discipline following a baccalaureate degree in an approved engineering curriculum	3
Doctorate in an engineering discipline following a baccalaureate degree which is not in an approved engineering curriculum	4
Master of science degree in an engineering discipline following a baccalaureate degree which is not in an approved engineering curriculum	5
Baccalaureate degree in an approved engineering curriculum	4
Baccalaureate degree and completion of specific educational courses as required in subsection (c)	6

(c) The education of all applicants, except those who have obtained a baccalaureate degree in an approved engineering curriculum, must include the following:

- (1) At least twelve (12) semester credit hours in college level mathematics, excluding college algebra and trigonometry, which must include a minimum of nine (9) semester credit hours of calculus and a minimum of three (3) semester credit hours of advanced calculus based mathematics, such as differential equations, linear algebra, or numerical analysis.
- (2) At least eight (8) semester credit hours in college level courses in the physical sciences, which must include a minimum of three (3) semester credit hours of calculus based physics and a minimum of three (3) semester credit hours of chemistry.
- (3) At least twelve (12) semester credit hours of engineering sciences that require calculus as a prerequisite or corequisite.
- (4) Effective January 3, 2003, at least twelve (12) semester credit hours in engineering design.

(d) For a course to qualify as an engineering design course, the course must instruct on the decision making process in which

the basic sciences and mathematics and engineering sciences are applied to convert resources optimally to meet a stated objective. Among the fundamental elements of the design process are the establishment of objectives and criteria, synthesis, analysis, construction, testing, and evaluation. The content of an engineering design course must include some of the following features:

- (1) Development of student creativity.
- (2) Use of open-ended problems.
- (3) Development and use of modern design theory and methodology.
- (4) Formulation of design problems statements and specifications.
- (5) Consideration of alternative solutions, feasibility considerations, production processes, concurrent engineering design, and detailed system descriptions.

Further, it is essential that a variety of realistic constraints, such as economic factors, safety, reliability, aesthetics, ethics, and social impact be included.

(e) An applicant for admission for the examination must:

- (1) include on the application, or a document attached to the application, which courses meet the requirements of subsection (c) by stating the course names and numbers; and
- (2) submit all college transcripts that show that college credit was awarded for the claimed courses.

(f) No degree requirement under this section may be achieved by obtaining an honorary degree or a degree obtained entirely by correspondence.

(g) College courses with substantial duplication of content may be counted only one (1) time toward the requirements of subsection (c).

(h) College courses that cover two (2) or more categories in subsection (c) shall be counted only in one (1) category. The appropriate category is that which is the greatest portion of the course. In determining the greatest portion of the course, the board may take into account information from the institution offering the course.

(i) Progressive experience of sufficient quality when used relative to the requirement for experience on engineering projects as provided for in IC 25-31-1-12(a) means the applicant has demonstrated the ability to assume continuously increasing levels of responsibility for engineering projects.

(j) No experience obtained prior to a baccalaureate degree shall qualify.

(k) Part-time experience acquired while the applicant was a full-time student shall not qualify. All other part-time experience shall be converted to its full-time equivalent in evaluating an application.

(l) Notwithstanding other provisions of this section, applicants who hold either a valid certificate as an EI or an engineer-in-training (EIT) do not need any additional education beyond that which was required for admission to the EI or EIT examination in Indiana, so long as they apply for admission to the professional engineer examination no later than the first examination application deadline (as provided for in 864 IAC 1.1-3-4), which is subsequent to seven (7) years after the date the applicant took and passed the engineering intern examination.

In order to be granted registration as a professional engineer, the applicant must pass Part I, Part II, and Part III.

(b) Part II of the professional engineer examination shall be by engineering discipline, for example, electrical, mechanical, or civil. The applicant shall be required to choose the discipline in which the applicant desires to be examined.

(c) Part III of the professional engineer examination will be a take home examination to be taken in conjunction with Part II.

(d) The examination for certification as an EI shall be the fundamentals of engineering examination described in subsection (a).
